

Dear Dedicated Representatives of the State of New Jersey and the people of the United States of America:

Our country is on a path that is leading to the continuous degradation of the Constitution. A document that has historically been sacrosanct is now used as a political weapon. On a whim, personal freedoms are redefined and random revisions are proposed.

Please help stop the dissolution of the basis of our country's structure by appropriately applying first amendments rights - uniformly - to all citizens. Thank you.

Merry1
